

The figure displays a 10x10 grid of colored squares, each representing a value in a 2D function. The color scale is as follows:

Color	Value Range
Dark Red	0.000000 - 0.000000
Red	0.000000 - 0.000000
Orange	0.000000 - 0.000000
Yellow	0.000000 - 0.000000
Bright Yellow	0.000000 - 0.000000

The grid shows a sharp peak in the second and third columns, with the highest values (bright yellow) occurring in the fifth and sixth rows. The rest of the grid is predominantly dark red, indicating low values.
